

Bridge Civil Engineering Ltd is committed to the implementation, ongoing maintenance and continual improvement of our ISO 45001 health & safety management system for the purpose of minimising, or where reasonably practicable, eradicating all risk to the safety and health of all employees, contractors and customers that we could impact or influence.

To achieve this throughout our daily activities to deliver civil engineering and building contracts, including the laying of asphalt, we are committed to...

- Providing safe and healthy working conditions
- Complying with all applicable legal and regulatory requirements
- Setting continual improvement objectives
- Monitoring and measurement of our H&S performance
- Reviewing, identifying and addressing H&S enhancing management system resource requirements
- Creating and complying with H&S processes, policies and procedures as required
- Establishment and implementation of systems for the consultation, participation and development of workers
- Encouraging a positive and inclusive H&S culture throughout the organisation
